

TAIGA CHAIR

Taiga is a collection of wooden leg chairs that features 8 seat types that differ in height and backrest upholstery solution. Its most differentiating aspect with respect to the other Dressy models is the warmth transmitted by its design, such as the legs that born from the base of the seat. These legs are made of solid ash wood and can be manufactured in various natural colours that maintain the essence of the wood. Perfect for a relaxed atmosphere. If you want to achieve a more vibrant effect, the wooden leg can be offered in any of the colours offered in the finishes catalogue.
