

Disegnato da Federica Biasi, Noa è un divano componibile formato da diversi elementi con cui progettare configurazioni lineari o a L. La base, sospesa sul particolare piedino in metallo, accoglie gli elementi imbottiti, con o senza schienale, ma anche piani in materiali preziosi come il legno o il marmo che fungono da tavolino. Essenziale e confortevole, Noa si personalizza in base a spazi, gusti ed esigenze.

*Designed by Federica Biasi, Noa is a modular sofa comprising various sections that can be put together to create straight or L-shaped configurations. The base, seemingly floating on the distinctive metal foot, accommodates the upholstered sections - with or without backs - as well as shelves in high-end materials, like wood or marble, which serve as side tables. Pared back and comfortable, Noa can be customized to suit individual spaces, tastes and requirements.*
